Response to Amendment

Referring to claims 21-29, the primary reason for allowance of the claims is the inclusion of a pigtail pair including a plurality of polarization maintaining (PM) fibers being in a pigtail, where the fibers are aligned such that the corresponding principal axes of each of the plurality of PM fibers and the secondary axes of the grouping intersect at a predetermined angle while maintaining distinct optical transmission paths .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
